About This Checklist

This SEO checklist is built specifically for Aerovania — a B2B drone and aerospace technology company based in Nagpur with government and PSU clientele, AS9100C and ISO 9001:2015 certifications, and project history including Indian Railways and the Svamitva Scheme aerial mapping program.

The checklist is structured across 10 SEO modules covering every dimension of ranking — from technical infrastructure and Core Web Vitals to schema markup, B2B keyword targeting, E-E-A-T trust signals, and government directory listings. Each task is tagged with a priority level to guide execution sequencing.

104	42	49	13
TOTAL TASKS	P0 — MUST DO	P1 — SHOULD DO	P2 — NICE TO HAVE

Priority Legend

PRIORITY	LABEL	TIMELINE
P0	Must Do	Before Launch
P1	Should Do	Day 1–30
P2	Nice to Have	Day 31–90

Tip: Complete all P0 items before website launch. P1 items within the first 30 days. P2 items within 90 days for long-term SEO compounding. For fastest B2B ranking gains in the aerospace/government sector, prioritize Technical SEO + E-E-A-T + Schema Markup first.

MODULE 01 TECHNICAL SEO CRITICAL

17 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
○	P0	Set up Google Search Console & verify ownership via DNS TXT record
○	P0	Set up Google Analytics 4 with proper conversion events (form fills, brochure downloads, demo requests)
○	P0	Submit XML sitemap to GSC (auto-generate & keep dynamic)
○	P0	Configure robots.txt — allow crawling of all key pages, block staging/admin
○	P0	Force HTTPS sitewide; ensure SSL certificate is valid and auto-renews

O	P0	Set canonical tags on all pages to prevent duplicate content
O	P1	Implement hreflang if multilingual content planned (EN + regional languages)
O	P0	Ensure mobile-first responsive design (Google indexes mobile version first)
O	P0	Fix all 4XX and 5XX errors; set up 301 redirects for any changed URLs
O	P1	Enable Gzip/Brotli compression on server for all text-based assets
O	P1	Minify CSS, JS, and HTML files in production build
O	P1	Implement lazy loading for all images below the fold
O	P1	Use next-gen image formats (WebP/AVIF) with proper fallbacks
O	P1	Set up a CDN (Cloudflare free tier) to serve assets from edge nodes globally
O	P1	Eliminate render-blocking CSS/JS — defer non-critical scripts
O	P2	Check crawl budget: ensure Googlebot isn't wasting crawls on paginated/filter URLs
O	P2	Validate HTML/CSS — W3C compliance improves render consistency and crawlability

MODULE 02 CORE WEB VITALS CRITICAL

8 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	LCP (Largest Contentful Paint) < 2.5s — optimize hero image/text load
O	P0	FID/INP (Interaction to Next Paint) < 200ms — reduce main thread blocking JS
O	P0	CLS (Cumulative Layout Shift) < 0.1 — set explicit width/height on all images and embeds
O	P1	TTFB (Time to First Byte) < 800ms — optimize server response time
O	P1	FCP (First Contentful Paint) < 1.8s — prioritize above-fold content loading
O	P0	Run PageSpeed Insights on every key page; target 90+ mobile score
O	P1	Test real-user CWV data via Chrome UX Report (CrUX) in GSC
O	P1	Preload LCP image with <link rel='preload'> in <head>

MODULE 03 ON-PAGE SEO HIGH

15 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM

O	P0	Write unique, keyword-rich <title> tag (50-60 chars) for every page — include 'drone services India' variants
O	P0	Write compelling meta description (150-160 chars) for every page — include CTA
O	P0	Use exactly one H1 per page — keyword-focused, describes page intent clearly
O	P0	Structure content with H2-H4 hierarchy; include LSI keywords in subheadings
O	P1	Target primary keyword in first 100 words of body content
O	P1	Maintain keyword density of 1-2%; avoid keyword stuffing
O	P0	Add alt text to ALL images — descriptive, includes relevant keywords naturally
O	P0	Use descriptive, hyphenated URLs (e.g. /drone-survey-services-india not /page?id=12)
O	P1	Implement internal linking strategy — every page linked from at least 2 others
O	P1	Add breadcrumb navigation for deep pages (also improves schema)
O	P1	Optimize content length: Service pages 800-1200 words; Blog posts 1500-2500 words
O	P1	Add FAQ sections on key pages (triggers FAQ rich results in SERPs)
O	P1	Include CTAs in body content — 'Request a Quote', 'Download Capability Deck', 'Talk to an Expert'
O	P1	Optimize Open Graph (og:title, og:description, og:image) for all shareable pages
O	P2	Add Twitter Card meta tags for social sharing previews

MODULE 04 SCHEMA MARKUP (STRUCTURED DATA) HIGH

10 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	Implement Organization schema — NAP (Name, Address, Phone), logo, social profiles
O	P0	Add LocalBusiness schema with Nagpur address — boosts local pack visibility
O	P0	Add Service schema for each drone service offering (aerial mapping, inspection, etc.)
O	P1	Add BreadcrumbList schema on all interior pages
O	P1	Add FAQPage schema for all FAQ sections — unlocks rich snippet real estate
O	P1	Add Article/BlogPosting schema on all blog/news posts
O	P2	Add SiteLinksSearchBox schema to enable on-site search from Google SERP
O	P0	Validate all schema using Google Rich Results Test tool before going live
O	P2	Add WebSite schema with SearchAction for internal search support

O	P2	Consider VideoObject schema if drone footage/demo videos are embedded

MODULE 05 KEYWORD STRATEGY HIGH

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	Research B2B/Government drone keywords: 'drone survey services India', 'UAV inspection PSU', 'aerial mapping government contracts'
O	P0	Target GeM-related keywords: 'GeM registered drone company', 'drone supplier GeM portal India'
O	P0	Target certification keywords: 'AS9100C certified drone company India', 'ISO 9001 UAV services'
O	P1	Map one primary keyword + 2-3 secondary keywords per page (no keyword cannibalization)
O	P1	Target DGCA-related keywords: 'DGCA approved drone operator', 'BVLOS drone India'
O	P0	Create dedicated landing pages for each use case: Railways, Land Survey, Infrastructure Inspection
O	P1	Target long-tail: 'aerial survey company Nagpur', 'drone mapping Maharashtra government'
O	P1	Build a semantic keyword cluster map — group topics by pillar page + supporting content
O	P1	Monitor keyword difficulty vs. search volume; prioritize low-competition, high-intent B2B terms

MODULE 06 CONTENT ARCHITECTURE HIGH

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	Build Topic Cluster model: Pillar page ('Drone Services in India') + cluster pages per service/use case
O	P0	Create dedicated case study pages: Indian Railways, Svamitva Scheme — 800+ words each with data/outcomes
O	P1	Launch blog/resources section with at minimum 4 posts at site launch (freshness signal)
O	P1	Publish a 'Drone Regulations in India 2025' evergreen guide — high authority backlink magnet
O	P1	Create comparison/explainer content: 'LiDAR vs. Photogrammetry', 'Fixed Wing vs. Multi-Rotor UAV'
O	P1	Add an Insights/Press page for PR coverage, certifications, and awards — E-E-A-T signal

O	P0	Create an 'About' page that highlights founding team expertise and AS9100C story — builds E-E-A-T
O	P0	Write dedicated service pages for each vertical: Surveying, Inspection, Defence, Agriculture, Training
O	P2	Publish monthly — minimum 2 blog posts; consistency is a ranking signal

MODULE 07 E-E-A-T (EXPERTISE, AUTHORITY, TRUST) HIGH

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	Create detailed author bios for all blog contributors (LinkedIn links, credentials, tenure)
O	P0	Display AS9100C and ISO 9001:2015 certification badges prominently on homepage and footer
O	P1	Add a dedicated Certifications/Compliance page with downloadable certificates
O	P0	Feature client logos (Indian Railways, Govt of India Svamitva) with permission
O	P1	Add verifiable testimonials and case study outcomes with measurable results
O	P0	Publish a clear Privacy Policy, Terms of Service, and Refund/SLA policy
O	P0	Include a physical address, GST number, CIN on the Contact/Footer for trust signals
O	P1	Get featured/quoted in industry publications (Drone Federation of India, Aviation Week)
O	P2	Add Wikipedia-style citations/references on technical articles to signal research quality

MODULE 08 LOCAL & DIRECTORY SEO MEDIUM

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
O	P0	Create and verify Google Business Profile — add all services, photos, team images
O	P0	Ensure NAP (Name, Address, Phone) is IDENTICAL across website, GBP, and all directories
O	P0	Submit to GeM Supplier Directory with complete profile and keyword-rich description
O	P1	List on DGCA approved operators directory
O	P1	List on Drone Federation of India (DFI) member directory
O	P1	List on IndiaMart and TradeIndia B2B directories with SEO-optimized listing
O	P2	Submit to Justdial and Sulekha (Nagpur Business listings)

○	P1	List on Aerospace & Defence industry portals: defence.capital, aerospacemanufacturingindia.com
○	P2	Ensure Wikidata/Knowledge Graph data for Aerovania is accurate (create if missing)

MODULE 09 OFF-PAGE & LINK BUILDING HIGH

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
○	P0	Build backlinks from DGCA, MoCA (Ministry of Civil Aviation) press releases citing Aerovania
○	P1	Guest post on aviation/defence/GIS publications: Geospatial World, Aviation Week (India), DefenceInfo
○	P1	Issue press releases via PRWeb/BusinessWire for major contracts and certifications
○	P2	Submit case studies to IEEE/ISRO/CSIR research portals if applicable
○	P1	Get listed in NASSCOM and CII member directories for credibility backlinks
○	P0	Leverage LinkedIn articles for founder-led thought leadership with dofollow website links
○	P2	Partner with IITs/NITs for research collaboration — edu backlinks are extremely high authority
○	P1	Sponsor or speak at drone/GIS conferences — get listed on event pages (authoritative backlinks)
○	P1	Build linkable assets: free drone regulation guide, ROI calculator, cost estimator tool

MODULE 10 ANALYTICS & MONITORING MEDIUM

9 tasks | Complete by priority: P0 before launch, P1 in 30 days, P2 in 90 days

	PRIORITY	TASK / ACTION ITEM
○	P0	Set up GA4 goals for: Contact form submission, Quote request, PDF download, Phone click
○	P1	Install Microsoft Clarity or Hotjar for heatmaps and session recording
○	P0	Configure GSC email alerts for manual actions, security issues, and indexing drops
○	P1	Set up rank tracking for 20-30 target keywords (Semrush, Ahrefs, or Ubersuggest)
○	P1	Monitor backlink profile monthly — disavow toxic links via GSC if needed
○	P1	Set up uptime monitoring (UptimeRobot free tier) — downtime kills crawl budget
○	P1	Conduct technical SEO audit every 30 days using Screaming Frog or Semrush Site Audit

O	P1	Track competitor organic share-of-voice monthly (ideaForge, Garuda Aerospace, General Aeronautics)
O	P2	Set up monthly reporting dashboard (Looker Studio) pulling from GA4 + GSC

Key Tools Reference

Google Search Console	Core indexing, crawl errors, sitemap — Free
Google Analytics 4	Traffic, conversions, user behavior — Free
PageSpeed Insights	Core Web Vitals scoring — Free
Screaming Frog SEO Spider	Full site crawl and technical audit — Free up to 500 URLs
Semrush / Ahrefs	Keyword research, rank tracking, backlink analysis — Paid
Ubersuggest	Keyword research entry-level — Free/Low cost
Google Rich Results Test	Schema validation — Free
Microsoft Clarity	Heatmaps and session recordings — Free
UptimeRobot	Uptime monitoring — Free
Looker Studio	SEO/GA4/GSC reporting dashboards — Free
